

KAZAKH INVEST

Invitation to the roadshow «Presentation of the investment potential of Special Economic Zones of the Republic of Kazakhstan»

17th November of 2017, Republic of Kazakhstan,
Karaganda region, Karaganda city.

KAZAKH INVEST – National Investment Promotion Agency for Kazakhstan designed to attract foreign direct investment in priority sectors of the economy. In order to improve and preserve the positive investment climate, the Government of Kazakhstan launched the National Investment Attraction and Retention Strategy. The comprehensive program of growth and diversification strategy contributes in attaining the developing and upgrading goals for country's economy.

The world practice shows us that one of the most effective instruments for attracting investments into the country's economy is its diversification and innovative approach. For these purposes the Government of Kazakhstan created the Special Economy Zones (SEZ). The main goal of SEZ is to provide the conditions for the progressive growth in industries such as: Innovative Technology, engineering, Transportation, and other infrastructure related fields.

Today there are 10 Special Economic Zones with various industrial focuses in Kazakhstan. These zones have already became the center of attraction for a number of international and Kazakh companies. The members of SEZ are exposed to unique opportunities including but not limited to: central and regional support, tax exemption, ready-to-use facilities, and more.

Kazakh Invest Company invites you to join us in the roadshow & business forum «**Presentation of the investment potential of Special Economic Zones of the Republic of Kazakhstan**». The forum will be held on November 17, 2017, Karaganda City, Karaganda region. The current operating residents and SEZ managers will introduce you to the full specter of great opportunities and benefits of becoming resident and investor.
